Thoughtful
Parents

Recommend the International Business College because they know that the school employs only teachers of moral worth and business ability—men and women who can help in a measure to lay the foundation for a broad, noble, and manly character, without which, knowledge, ability and special training are of little avail.

Well begun is half done. Start right, keep right and you will come out right. Begin the New Year right. Quit looking for a "job." Call at the college and learn how easy it is to prepare for a good position.

You need not pay one cent until you are convinced that you are making no mistake. You can not afford to make a mistake in matters of education. The best is none too good for you.
